

HEATING HELP: Fuel Assistance & Energy Efficiency Programs

LIHEAP provides eligible households with help in paying a portion of their winter heating bills. The program is crucial not only to help pay for the rising cost of heat during our cold New England winters, but also to ensure safety and good health. Low-income families facing disproportionately high energy costs are forced to make household budget trade-offs that jeopardize children's health, including choosing heat over food or health care.

Fuel Assistance recipients are also eligible for additional energy-saving programs including Weatherization, a program that helps make the home more efficient and the heating more effective. Fuel Assistance recipients are also connected to a variety of other services that help ease the burden of energy cost.

FY18 Snapshot

How many we served

160,000 households served total

36% include children under 18

15% include children under 6

45% include elderly (60+)

+7% include veterans

Many are working & access other supports

42% have earned income

54% access food stamps

Many were saved from being without heat

8,552 received shut off notices

11,705 emergencies

(utility shut off or out of oil)

People mainly heat their homes with Natural Gas (55%), Oil (26%) and Electric (11%).

Fuel Assistance (LIHEAP) is a federally-funded program through the Office of Community Services (OCS), Division of Energy Assistance (DEA) and managed in MA by the Department of Housing and Community Development (DHCD). Over \$136.5M comes to MA for Fuel Assistance. In addition, MA receives more than \$116M combined from federal and investor-owned utility companies for energy conservation and heating programs to assist +20,000 households. The program is provided by a network of 22 community-based organizations including 20 Community Action Agencies, the City of Cambridge, and the New England Farm Workers Council.
